BEER SHOP BIRRALAND

Category: Brewery
business description:

Thanks to Daniele Cosenza, we have the first beer shop in the city. The selection is vast: more than 100 international products (Belgian, German, Dutch, English and Scottish) with many curiosities such as the Trappist monastery beer of Westvleteren (Belgium) and samples of craft breweries in Denver and San Francisco. Do not miss the selection of the best Italian producers, always updated, which includes Le Baladin, Birra del Borgo, Beba, Montegioco, Birrificio Italiano, Bruton, Birrificio del Ducato, Troll and Civale from Alessandria. It is possible to buy food specialties such as snails with beer and beer jellies, to accompany cheese. Orders can also be placed online.
