Sale d'Arte

Category: Museum
business description: With refurbished interiors and a redesigned exhibition layout, the museum presents a selection of the most significant artworks and artifacts from the collections of the Museum and Civic Art gallery.

The rooms are organized into several thematic sections:

The Middle Ages and Civic Life explores the city's civic identity and historical roots. This section also features a magnificent cycle of frescoes depicting scenes from the legend of King Arthur. The expansion of the museum's collections, from the second half of the nineteenth century onward, reflects the close relationship between the city and its museum. The Art Rooms are the focal point for the heritage of Alessandria but also a place where the city's collective memory is preserved and its contemporary cultural identity is celebrated.

The Art Rooms host temporary exhibitions during the year (for information refer to the single dedicated events).

Admission ticket reduced to €3.50.
