Stevano - dal 1904 (Albergo Casa Vicino)

Category: Restaurants and taverns
business description: Nestled among the mountains, at an altitude of 750 m, the restaurant represents the history and tradition of the ancient village of Pallavicino. Inn since 1904, following a careful and loving restoration, it is now a hotel equipped with comforts (including a swimming pool). Besides the richness of the menu, which contains dishes and traditional products reinterpreted in a contemporary key, and of the wine cellar, the large garden available to guests is ideal for relaxation in summer.
