Vigne Regali Banfi

Category: Cantine
business description: The Banfi Piemonte winery reflects the philosophy of the brand and is a beacon of innovation, tradition and beauty in the renowned wine region of Piedmont. Established in 1979, when John and Harry Mariani took over the historic Bruzzone winery, it extends for more than 50 hectares between the towns of Novi Ligure and Acqui, 46 are planted with vineyards. Since then, growth has been constant, focused on typicity and technological innovation, with a unique vocation for quality sparkling wines.

Banfi Piemonte is a name which evokes images of lush vineyards, and a winery steeped in history. In this region, renowned for wine making, Banfi has known how to merge the wine tradition with passion and innovation, creating symphonies of flavors and unique aromas. The most precious gems include the spumante, produced using the classic method, an artisan process which includes a second fermentation in the bottle. This method, handed down through generations, gives the wines complexity and unrivaled finesse. Each bottle is the result of meticulous dedication, from the attentive selection of grapes, both native and international, to the techniques of state-of-the-art wine making and patient ageing. Next to the Classic is also the Charmat method to produce sparkling wines with great freshness.
